Information for application submission

Applications will be called through a newspaper/SLAAS web advertisement. The applicant must submit the application as per the given guidelines published on SLAAS website. Only the scientific communication published* prior to the application deadline will be considered for the award. The curriculum vitae, self-evaluation report and evidences with the application should be submitted according to the instruction given on the award advertisement. Applicants who are members of more than one of the sections of SLAAS (A, B, C, D, E1, E2, E3, F) should indicate under which section/discipline the application should be evaluated.

* The final writes up accepted by the editor should be available online/ print. When possible, provide doi. of the publication.

Selection and Evaluation Process:

1. Selection criteria will be a two tier process. In the first round, eligibility of the applications will be screened though the eligibility criteria published in this document. Applicants those who have satisfied the eligibility criteria will be evaluated under the second round of evaluation.
2. In the second round of evaluation, all applications that fulfilled the eligibility criteria will be reviewed by two reviewers (2 experts from the relevant study area of the applicant)
3. A method of standardization approved by the Council will be adopted when evaluating applications from different disciplines. The method of standardization the scientific contribution among disciplines, the marks obtained by each candidate will be normalized using a standardization factor according the UGC circular No 05/2018.
4. Candidates who obtain the highest marks in each section/s will be consider for the award.
5. Up to a maximum of three awards will be offered annually. Only one award will be given per section.
